

# Free Play Music

## Navigate and Search in FreePlay Music On Line

1. Launch your Browser.
2. Go to [www.freeplaymusic.com](http://www.freeplaymusic.com)
3. You can select music by CD volume, style or feel. Choose one of these options to run a search.
4. You can also search by keyword.
5. There will be several versions of every song--the full version and versions that last for a shorter length of time shown in seconds (10, 15, 20, 30... etc).
6. Scroll down the page to read about more songs or use the back button to choose a different search.
7. You can click on the preview button to hear a song, but on some computers this feature does not work. In that case go ahead and download.

## Download and Import FreePlay Music into iTunes

1. To download a song on a Mac hold down the **Option** key and click on the length of the the song you wish to download from the list of MP3s.
2. To download a song on a PC, right click on the length of the the song you wish to download from the list of MP3s.
3. The song will be downloaded to your download folder or desktop.
4. Now Open iTunes and drag the song from the desktop into the iTunes window.
5. On a Mac, the song will now be available to you in iPhoto and iMovie.
6. You can also import the song into a variety of programs such as Audacity, PhotoStory, iMovie, MovieMaker, etc.
